

Dear Health conscious reader,

GREAT NEWS FOR PALEO LOVERS!

If you are reading this email, then you are probably one of the fast growing population of health conscious individuals who truly care about your health. You pride yourselves on the great shape you're in, and you make conscious decisions about everything that affects your health - from what you eat to how you workout.

But the science behind healthy living is continually evolving. Every day, new information about how theories of evolutionary health can be “made functional” are being discussed and advanced the world over.

As a young lady, a working mother and career woman, a health-conscious guy, or a busy business man, it's hard to keep tabs on all of the latest developments in Paleo. And that's why **Paleo f(x) Austin 2014** is so important for its followers. Since the inception of Paleo f(x)[™] in 2011, these annual gatherings have evolved into the world's largest Paleo-centric event. Sadly, not everyone will be able to attend the event in person to get the latest on developments in ancestral health theory and practice.

We know that many of you would love nothing better than to be there and join in this extraordinary Paleo celebration. But we also realize that you may have other work-life commitments that will keep you from Austin. And that's where we have some **GREAT NEWS** for you!

For all of our fellow Paleo f(x) fans out there, if you can't make it to Austin from April 11-April 13, you don't need to worry. Through our live streaming [On Demand](#) presentations, we've made it possible to bring the Paleo 2014 Spring symposium to you!

What's in store?
